

Guatemalan Center

of New England

Dear Cox Communications,

My name is Maria Escobar, and I was born in Guatemala. I moved to the United States when I was 10 years old. When I got to the United States it was hard for me to learn English and get to where I am today, which is college. I had many implications during high school, but I kept on trying to be successful, because I wanted to be a good role model for my siblings and the first to go to college. I want to be able to keep on assisting college and be able to reach my goal, which is to graduate college with a criminal justice degree.

I am very thankful for your financial help. I was awarded the \$1,000 scholarship on August 4th. Thanks to this money, I was able to make my first college payment. It makes me very happy to know that there are people and businesses that care for others' education and are willing to give money to help them with part of their college tuition.

Thank you, Cox Communications!

Sincerely,

Maria Escobar

Criminal Justice, Rhode Island College
